Sample Description: Electric cable painted with (Intumescent)flame retardant paint.

S. No.	Test Parameter	Result
ETERNISH E	Stability	There is no significant change in the shape of fire resistant coating on electric cable during fire resistance test. The coated electric cable has not collapsed and stayed for 120 minute of the fire resistance test.
2	Integrity	No crack, hole or opening observed after 120 minute of fire resistance test.
3	Fire Resistance Properties	Fire does not propagate after removing the flame source.
4	Self Extinguished Properties	Fire self- extinguishes when flame source is removed.
5,00	Peel off after 120 minute	Coating remains bonded on electric cable. No cracking and peel off observed.

Note: 1.Test performed on Burner Flame continuously for 2 hour at 1000 °C. 2.Sample is not suitable to perform Insulation test.

Section Certificate No.: 23CH6909N 1
